Although the person may not recognise the connection, self-harm often becomes a response to profound and overwhelming emotional pain that cannot be resolved in a more functional way. Sat, 01 Dec 2018 20:39:00 GMT Self-harm - Wikipedia - Psychoanalysis is a set of theories and therapeutic techniques related to the study of the unconscious mind, which together form a method of treatment for mental-health disorders. The discipline was established in the early 1890s by Austrian neurologist Sigmund Freud and stemmed partly from the clinical work of Josef Breuer and others.. Freud first used the term psychoanalysis (in French) in 1896. Wed, 05 Dec 2018 12:13:00 GMT Psychoanalysis - Wikipedia - Borderline personality disorder (BPD), also known as emotionally unstable

personality disorder (EUPD), is a mental disorder characterized by strained relationships with other people, and unstable emotions and sense of self. Other symptoms include feelings of emptiness and fear of abandonment. Dangerous behaviors, such as self-harm, are frequently exhibited as well.
